Dear Parent / Guardian

I manage your local British Heart Foundation (BHF) Furniture and Electrical store. You may be aware that the BHF is the nation's leading heart charity in providing research, education and patient care in the fight against heart and circulatory disease – the UK's number one killer. Last year our shops across the country raised over £22 million. We need to raise even more this year – and that is why I am writing to you.

We can provide for you and your family and friends a **free collection service** for unwanted, but working/saleable, furniture and electrical items. We collect items from Washing Machines to VCRs, Music Centres to Lamps and everything in between.

In return, you can be confident that the items we collect will be recycled and re-sold through our stores and in turn generate much needed funds for the British Heart Foundation. We solve your problem of disposing of unwanted items - and you help us to fight heart and circulatory disease.

If you think that this scheme could be of benefit to either yourself or your friends and family, I would love to hear from you. If you have any unwanted Furniture and Electrical items and would like to use our service please contact our Store on 0844 499 4159 to arrange a free collection.

Thank you for your time and I look forward to hearing from you in the near future.

Yours faithfully

Store Manager
