

July 2011

The Year 10 Art and Design BTEC groups visited the Leeds City Gallery and Yorkshire Sculpture Park as part of their course.

They experienced first-hand the work of artists from the 1900s up to the present day. This included paintings, sculptures and installations.

The Spanish artist Jaume Plensa was showcased at the Yorkshire Sculpture Park. His impressive work focuses on language and letterforms.

The students enjoyed interacting with Plensa's work as they were invited to bang gongs and listen to the sounds of the word curtains.

Our students were able to make drawings, take notes and photographs that helped them develop their own work in school.
